Ethos Technologies is looking for a Senior Oracle Architect/Subject Matter Expert (SME) to come in and be the technical lead on an Oracle Identity Management (OIM) Upgrade from 11G to 12c. The position will be on a contract with the United States Patent and Trademark Office (USPTO). The RBAC system is for external party access (lawyers/citizens that access USPTO external facing applications). Approximately 35 applications.

Education/Experience:

- A Bachelors or higher in Computer Science, Engineering, or equivalent degree.

- 5-7+ years of professional work experience as a solutions architect or systems integrator. This should include 3+ years of enterprise software implementation experience.

- Ability to obtain a Public Trust clearance.

Requirements/Responsibilities:

- Upgrade Oracle Identity Manager from 11g to 12c.

- Must create plan to modify previously delivered custom integration code to work with the upgrade properly.

- Installation, integration and deployment of the Oracle Identity Manager in client environment.

- Communicating to clients and partners aspects of both the product and the implementation at the technical and/or functional level appropriate for the situation.

- Requirements gathering, analysis and documentation.

- Working with clients post implementation for user testing, debugging, support and maintenance.

- Experience setting up and installing software on both Windows and Unix (Linux, Sun, HP, AIX) platforms.

- Experience with oracle databases (Oracle, Sybase, MSSQL, MySQL).

- Experience with AD directories

- Experience with RBAC

- Experience with Oracle SOA Suite

- Experience with Project Management duties (project planning, resource management, scope, schedule and status, documentation).

- Experience with QA duties (usability testing, performance testing, automated testing, test scripts, test cases and test plans).

- Excellent communication skills and extensive experience working with clients and partners.
